MLK BRANCH UPDATES

The remodeling project remains on schedule. The temporary entrance is on Vliet Street, and the Credit Union lobby remains open for business. Our night deposit box has been temporarily removed until further notice. A new night deposit box will be installed in the drive-up as the project progresses. We are currently focusing on building the new credit union entrance, exterior siding, framing of 2nd-floor offices, and kitchen. The Board, management, and staff appreciate your patience during our remodeling project.

BAY VIEW BRANCH RELOCATION UPDATE

Our schedule for moving into our new location at 2863 South Kinnickinnic Avenue (just one block south from our current site) is now the end of January. Delays in our buildout plan review and securing permits with the City of Milwaukee put us behind our originally planned move by the end of the year. The new space is beginning to take shape with framing, drywall, and electrical completed. We will have new hours at our new location. The Bay View branch will be open from 10 AM to 6 PM Monday through Friday and Saturday from 9 AM to 12 PM.

How to Avoid a Tax Scam

The IRS will never call you to demand immediate payment and never threaten to arrest you for unpaid taxes. They will never ask you to use your debit card or gift cards to pay any unpaid taxes. If you get one of these calls, HANG UP!

Ignore IRS messages that come by email, text or social media. The IRS does not use these forms of electronic communications to contact taxpayers. If you have any doubts about a message you receive, don't respond or click on any links. Contact the IRS at 800-829-1040.

How to Protect Yourself

The IRS suggests that you take the following steps to protect yourself from tax fraud:

File early. That way, if crooks get hold of your Social Security number, they won't be able to use it to file a phony tax return and claim your refund-you'll already have done that.

Use security software. Be sure you have an up-to-date anti-virus security program and a firewall installed on your computer or any device you're using to access sensitive documents or the IRS website. But also be on guard if someone calls you unexpectedly or you receive an email with a link to a software update. It could be from a scammer trying to trick you into downloading a data stealing computer virus.

Protect your personal information. Don't routinely carry your Social Security card or leave sensitive information lying around. If you must provide your important data online, such as your Social Security number or a password, for example on a banking website, verify you're on a legitimate site and not a phished one made to look like the real thing. Make sure your tax records are in a secure place.

Contact the IRS if you think you've been scammed. Report the scam to the Treasury Inspector General for Tax Administration. The phone number is 800-366-4484. You should also forward any emails that you think come from scammers to phishing@irs.gov.

Also, contact the IRS Identity Protection Specialized Unit if you believe someone has used your personal information to file a tax return or steal your identity. The phone number is 800-908-4490.
