

KEEP IN MIND THESE HELPFUL TIPS

Press the # key when asked. This signals CU*Talk to act upon your entry.

Keep your PIN number confidential. This protects your privacy and keeps others from gaining access to your accounts.

When entering dollar amounts, decimals are not required. For example, you would enter \$25.00 as 2500.

CU*Talk may occasionally be unavailable for short periods so that we may perform maintenance. If you are unable to complete a transaction for this reason, try calling back later.

Be extra careful when entering your member number and PIN. Entering a PIN incorrectly three times will disable access to that account through CU*Talk. If this happens, contact the credit union directly for reactivation.

CALL 1-800-860-5704

1. Enter your complete account number followed by the # key.
2. Enter your CU*Talk Personal Identification Number (PIN) followed by the # key.

DO NOT WRITE YOUR PIN ON THIS CARD.
